Personal Protective Equipment

Engineering Controls:

Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use adequate ventilation to keep airborne concentrations low.

 Eye / Face Protection:
 None required during normal use.

 Skin Protection:
 Oil resistant if skin contact is anticipated

 Hands/Feet:
 Not normally required. Gloves may be worn for extended use or with sensitive individuals.

 Respiratory Protection:
 Not normally required.

 Other protective equipment:
 None

Acute Oral Toxicity	Acute Dermal Toxicity	nal Toxicity Acute Inhalation Toxicity		Irritation - Eye						
no toxicity exist	no toxicity exist	no toxicity exist	no toxicity exist	no toxicity exist						
	This is a personal care product that is safe for consumer and other users under intended and reasonable use. Material is not found on any know list of carcinogen such as NTP, IARC, or by OSHA nor does it contains any carcinogens found in these files									
Sensitization		Mutagenicity		Sub-chronic Toxicity						
no toxicity exist		no reproductive effects		no toxicity exist						

Section 12: Ecological Information

Ecotoxicological Information

Acute Toxicity to Fish	Acute Toxicity to Invertebrates	Acute Toxicity to Algae	Bioconcentration	Toxicity to Sewage Bacteria
no toxicity exist	no toxicity exist	no toxicity exist	no toxicity exist	no toxicity exist
Chemical Fate Information				
Biodegradability	safe to environmen	t		
Chemical Oxygen Demand	safe to environmen	t		
The product incredients are to be acfed	the environment of concentrations and		nill according	

The product ingredients are to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios.

Section 13: Disposal Considerations

For household settings: The following instructions are for consumer usage only. Do not discharge product into natural water without pre-treatment or adequate dilution For Non- household settings: product covered by this MSDS, in their original form, when disposed as waste, are considered non-hazardous waste according with Federal RCRA, regulations (40CFR 261). Disposal should be in accordance with federal, state and local requirements

NFPA Ratings:	Health: 0 Fire: 0 Reactivity: 0 Other:
	Hazard Scale: 0=minimal 1=Slight 2=Moderate 3=Serious 4 = Severe

Section 6: Accidental Release Measures

Spill or Release Producers: Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment.

For small spills (e.g., <1 gallon) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispolse of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clotthing and wash thoroughly before reuse.

For spills > 1 gallon, deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Transfer product to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

Section 7: Handling and Storage

Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans). Do not store in damaged or unmarked containers or storage devices. Keep containers securely closed when not in use.

Spilled material may present a slipping hazard if left unattended. Clean all spills promptly.

Section 8: Exposure Controls / Personal Protection

Personal Protective Equipment

Engineering Controls:	General machanical (e.g., fans) or natural ventilation is sufficient when this product is un use.
Eye / Face Protection:	Avoid eye contact. None required under normal conditions of use.
Skin Protection:	Oil resistant if skin contact is anticipated
Hands/Feet:	None required under normal conditions of use.
Respiratory Protection:	None required if used in a well-ventilated area.
Other protective equipment:	None

Method:		
Extinguishing Media:	Use methods for surrounding fire.	
Fire Fighting Instructions:	Firefighters should wear full protective clothing including self-contained breathing apparatus.	
Unusual Hazards:	When heated to decomposition, this product may emit toxic fumes.	
NFPA Ratings:	Health: 0 Fire: 0 Reactivity: 0 Other:	
	Hazard Scale: 0=minimal 1=Slight 2=Moderate 3=Serious 4 = Severe	

Section 6: Accidental Release Measures

Spill or Release Producers: Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment.

For small spills (e.g., <1 gallon) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispolse of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clotthing and wash thoroughly before reuse.

For spills > 1 gallon, deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Transfer product to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

Section 7: Handling and Storage

Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans). Do not store in damaged or unmarked containers or storage devices. Keep containers securely closed when not in use.

Spilled material may present a slipping hazard if left unattended. Clean all spills promptly.

Section 8: Exposure Controls / Personal Protection

Personal Protective Equipment

Engineering Controls:	General machanical (e.g., fans) or natural ventilation is sufficient when this product is un use.
Eye / Face Protection:	Avoid eye contact. None required under normal conditions of use.
Skin Protection:	Oil resistant if skin contact is anticipated
Hands/Feet:	None required under normal conditions of use.
Respiratory Protection:	None required if used in a well-ventilated area.
Other protective equipment:	None

Section 9: Physical and Chemical Properties

The product ingredients are to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios.

Section 13: Disposal Considerations

For household settings: The following instructions are for consumer usage only. Do not discharge product into natural water without pre-treatment or adequate dilution For Non- household settings: product covered by this MSDS, in their original form, when disposed as waste, are considered non-hazardous waste according with Federal RCRA, regulations (40CFR 261). Disposal should be in accordance with federal, state and local requirements

Section 14: Transport Information

DOT (49 CFR 172)	Non Hazardous
Emergency Response Guidebook (ERG) #:	
IATA (DGR):	Non Hazardous
Emergency Response Guidance (ICAO)#:	
IMO (IMDG):	Non Hazardous

Section 15: Regulatory Information

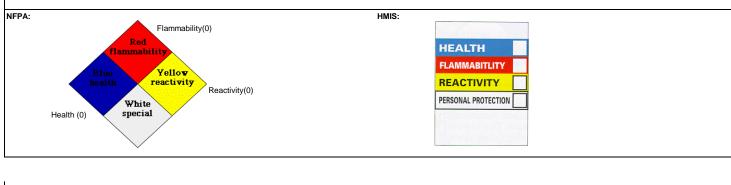

US Federal Regulations	
Clean Air Act: HAP/ODS	This product contains the following hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act. They are as follows:
	NONE
	This product does not contain any Class1 or Class 2 ODS
Clean Water Act: Priority Pollutant	This product contains the following Hazardous substances as defined by the CWA
	NONE
	This product does not contain may substances that are Priority Pollutant or Toxic Pollutant
FDA: Food Packaging Status	This product has not been cleared by the FDA for use in food packaging and /or other applications as an indirect food

	additive.
Occupational Safety and Health Act	NONE
RCRA	This product is not considered to be a hazardous waste under RCRA (40 CFR 261)
SARA Title III: Section 302 (TPQ)	NONE
SARA Title III: Section 302 (RQ)	NONE
SARA Title III: Section 311-312:	NONE

Method:	
Extinguishing Media:	Use methods for surrounding fire.
Fire Fighting Instructions:	Firefighters should wear full protective clothing including self-contained breathing apparatus.
Unusual Hazards:	When heated to decomposition, this product may emit toxic fumes.
NFPA Ratings:	Health: 0 Fire: 0 Reactivity: 0 Other:
	Hazard Scale: 0=minimal 1=Slight 2=Moderate 3=Serious 4 = Severe

Section 6: Accidental Release Measures

Spill or Release Producers: Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment.

For small spills (e.g., <1 gallon) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispolse of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clotthing and wash thoroughly before reuse.

For spills > 1 gallon, deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Transfer product to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans). Do not store in damaged or unmarked containers or storage devices. Keep containers securely closed when not in use.

Spilled material may present a slipping hazard if left unattended. Clean all spills promptly.

Section 8: Exposure Controls / Personal Protection

Personal Protective Equipment

Engineering Controls:	General machanical (e.g., fans) or natural ventilation is sufficient when this product is un use.
Eye / Face Protection:	Avoid eye contact. None required under normal conditions of use.
Skin Protection:	Oil resistant if skin contact is anticipated
Hands/Feet:	None required under normal conditions of use.
Respiratory Protection:	None required if used in a well-ventilated area.
Other protective equipment:	None

Chemical Fate Information				
Biodegradability	safe to environmer	nt		
Chemical Oxygen Demand	safe to environmer	nt		

The product ingredients are to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios.

Section 13: Disposal Considerations

For household settings: The following instructions are for consumer usage only. Do not discharge product into natural water without pre-treatment or adequate dilution For Non- household settings: product covered by this MSDS, in their original form, when disposed as waste, are considered non-hazardous waste according with Federal RCRA, regulations (40CFR 261). Disposal should be in accordance with federal, state and local requirements

Section 14: Transport Information

DOT (49 CFR 172)	Non Hazardous
Emergency Response Guidebook (ERG) #:	
IATA (DGR):	Non Hazardous
Emergency Response Guidance (ICAO)#:	
IMO (IMDG):	Non Hazardous
Emergency Schedule (EmS)#:	
Other Information:	Flash point (Closed Cup F) = Non-flammable

Section 15: Regulatory Information

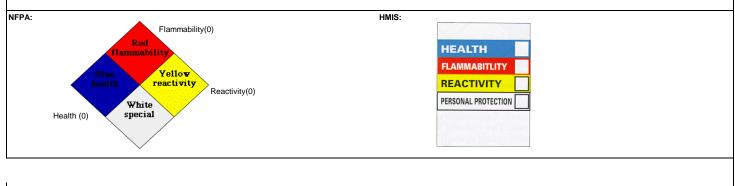

US Federal Regulations	
Clean Air Act: HAP/ODS	This product contains the following hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act. They are as follows:
	NONE
	This product does not contain any Class1 or Class 2 ODS
Clean Water Act: Priority Pollutant	This product contains the following Hazardous substances as defined by the CWA
	NONE
	This product does not contain may substances that are Priority Pollutant or Toxic Pollutant
FDA: Food Packaging Status	This product has not been cleared by the FDA for use in food packaging and /or other applications as an indirect food

l	additive.
Occupational Safety and Health Act	NONE
RCRA	This product is not considered to be a hazardous waste under RCRA (40 CFR 261)
SARA Title III: Section 302 (TPQ)	NONE
SARA Title III: Section 302 (RQ)	NONE
SARA Title III: Section 311-312:	NONE
SARA Title III: Section 313:	NONE
TSCA Section 8(b) Inventory:	NONE
TSCA Significant New Use Rule:	◆ NONE
State Regulations	
CA Right-to-Know Law:	NONE
California No Significant Risk Rule:	NONE
MA Right-to-Know Law:	NONE
NJ Right-to-Know Law:	NONE
PA Right-to-Know Law:	NONE
FL Right-to-Know Law:	NONE
MN Right-to-Know Law:	NONE
International Regulations	
CDSL: Canadian Inventory	NONE
(on Canadian Transitional List)	

Labeling according to EC Directives - 1999/45/EC	
European Community:	NONE

Section 16: Other Information

Precautionary Statement: Keep out of reachof children

This information presented herein was obtained from sources considered to be reliable. However, this information is provided without any warranty, expressed or implied, regarding its correctness or suitability for consumers intended use and/or application. For this and other reasons, we assume no responsibility and expressly disclaim liability for loss, damage or expense arising out of any way connected with the handling, storage use or disposal of the product. This SDS was prepared expressly for this product. Use the materials only as directed. If the product is used as a component of another product, the information contained within the SDS may not be applicable. If there are any problems or concerns understanding this SDS form, please direct all questions to INFOTRAC, Chemical Emergency Resources System at (1-800-535-5053).
